Attorney at Law

Dear Steve:

Enclosed is a copy of a Motion for the interim distribution of water for the 1988 irrigation season on the Duchesne River. This schedule has been used in the context of the pending general adjudication to distribute water in drier years. It is my impression that the Tribe has not heretofore objected to this interim method of distribution which is--as the Motion and Order state--totally without prejudice to the claims of any water user.

If you have any questions, please call me.

Best regards.

Very truly yours,
